Projects

Online Voting System | HTML5, CSS3, JavaScript, PHP, MySQL | **Mar 2026 – Jul 2026**

- Constructed a web-based voting platform supporting voter registration, candidate selection, vote submission, and result management through a centralized system.
- Established a PHP and MySQL backend to organize voter information, candidate records, and voting data, maintaining efficient database operations and reliable record management.
- Refined the user interface with HTML5, CSS3, and JavaScript to deliver a responsive, accessible, and streamlined voting experience across multiple screen sizes.

Repository: REPO-LINK

Handwriting to LaTeX Converter | *Python, Machine Learning, Computer Vision, LaTeX* | **Nov 2026 – Mar 2026**

- Architected an intelligent handwriting recognition system that converts handwritten mathematical expressions into structured LaTeX code for digital documentation.
- Engineered an image-processing pipeline to analyze handwritten characters and mathematical symbols, enabling automated recognition and expression reconstruction.
- Streamlined mathematical content creation by transforming handwritten equations into editable LaTeX, reducing manual transcription and improving digital accessibility.

Travel Booking Platform | *HTML5, CSS3, Tailwind CSS, Bootstrap, JavaScript, React.js* | **Mar 2025 – Aug 2025**

- Developed a dynamic travel booking application featuring integrated flight and hotel search capabilities, interactive destination guides, and user review systems.
- Designed a highly responsive, mobile-first interface utilizing Tailwind CSS and Bootstrap, optimizing user booking workflows for a seamless cross-device experience.
- Implemented dynamic content rendering with JavaScript and React to accelerate front-end performance, reduce load times, and significantly enhance user interaction.

Live Deployment: REPO-LINK

Certificates

CyberNetX | LPU **Aug 2026**
Certificate Link

Cybersecurity Job Simulation | MasterCard **Jul 2026**
Certificate Link

Ai And IoT | COEB **Mar 2025**
Certificate Link

Building And Generative Ai Model | Nxt Wave **Aug 2024**
Certificate Link

Technical Skills

Languages: Java, JavaScript , C++, PHP
Core Fundamentals: Data Structures & Algorithms, Object-Oriented Programming , DBMS, Computer Networks
Frontend: HTML, CSS, React.js, Tailwind CSS
Frameworks & Libraries: React.js, Next.js, Express.js
Backend & Databases: RESTful APIs, Authentication, CRUD Operations, MongoDB, MySQL
Tools: Prisma (ORM), Clerk (Authentication), Auth.js, Resend, Git/GitHub

Education

Lovely Professional University **2025 – 2027**
Master of Computer Applications — CGPA: 8.22 *Jalandhar, Punjab*

Udaynath Autonomous College Science And Technology **2022 – 2025**
Bachelor of Science — CGPA: 8.1 *Cuttack, Odisha*

Bhadrak Higher Secondary School **2020 – 2022**
Intermediate — Percentage: 75.5% *Bhadrak, Odisha*

P S S High School, Chandrakatbindha **2019 — 2020**
Matriculation —Percentage:78% *Bhadrak, Odisha*
